

Angular HTTP Communication

CONFIGURING AN APPLICATION TO MAKE HTTP REQUESTS

Brice Wilson

@brice_wilson www.BriceWilson.net

Course Overview

Consuming REST
Services

Advanced HTTP
Requests and
Error Handling

Creating
Interceptors

Caching HTTP
Requests with
Interceptors

Testing HTTP
Requests

Supported
Angular Version

12.0.5 (June 2021)

Demo

Book Tracker project overview

The Role of RxJS

Angular apps are dependent on RxJS

Installed with apps created by the CLI

Most HttpClient methods return
Observables

Lots of RxJS operators available to work
with Observables

Demo

Preparing to use HttpClient in a project
